Profile Summary

A very passionate, young and calm individual with 3 years of experience in Full Stack Development. I have a strong background in Angular, React, JavaScript, HTML, CSS, and TypeScript. I am skilled in Python, specifically in Core Python, Numpy, Pandas, Django, Django Rest Framework, as well as MySQL, PostgreSQL, and MongoDB. I have worked on several innovative tools and have a track record of creating successful integrations and BI tools for ERP software. Recently, I've been contributing to building a recruitment platform at ScalaCode. My future goal is to become an Entrepreneur. With my skills and experience, I am confident in my ability to excel as a Full Stack Developer and contribute to the success of a dynamic organization.

Skills

- Angular & React.js
- Python Programming (Django, FastAPI)
- JavaScript / TypeScript / HTML / CSS
- MySQL / PostgreSQL / MongoDB
- Celery / Redis / Kafka
- Git / Docker / REST APIs
- Core Python / Pandas / Numpy

Experience

ScalaCode

Software Engineer | Apr 2025 - Present

- Leading the development of a customized recruitment portal called TalentMatched aimed at streamlining hiring workflows.
- Worked across the full stack using Django Rest Framework and React, implementing dynamic job matching logic and resume parsing integrations.
- Designed efficient data pipelines for processing and matching candidate profiles using Celery and Redis.

Kalash Aggarwal

+91 9205183067 | kalashagg1234@gmail.com | LinkedIn: linkedin.com/in/kalash-aggarwal-285a3023a

- Integrated multi-tenant architecture and advanced filter logic for recruiters and jobseekers.
- Contributed to frontend components using CoreUI, enhancing user experience with responsive dashboards and real-time updates.
- Implemented Server-Sent Events (SSE) for real-time notifications to recruiters when new applicants are received.

Advanced Idea Analytics

Full Stack Developer | Dec 2024 - Mar 2025

- Designed and developed a health card system enabling users to access their medical reports and history via QR code.
- Delivered end-to-end system architecture, development, and deployment, ensuring compliance with healthcare standards.
- Worked with stakeholders to deliver secure, scalable digital healthcare solutions.

Hostbooks Limited

Full Stack Developer | Jun 2022 - Nov 2024

- Developed and maintained software including a comprehensive reporting tool for Hostbooks accounting software.
- Built features like balance sheet, trial balance, profit and loss statements, and pivot table reporting modules.
- Played a key role in ERP software integrations using Django, Angular, and MySQL.

Education

Bachelor's of Computer Applications

IGNOU, Rajdhani College, New Delhi - Expected 2025

12th Standard

GBSSS No.3 Najafgarh - 2022
